

Component	Priority	Name	Description
New Page	1	View the hello world page	Users can view a new page by navigating to /hello-world on the instance
Repos Grid Page	1	View the number of pull requests	Users can view the number of pull requests in the change requests column
Collection Status Page	2	View visualization about committers, default branches, forks, stars, and watchers	Users can view visualization about committers, default branches, forks, stars, and watchers on the collection status page
Getting Started Document	2	Update the getting started document	The goal for the getting started document is to read the quick start and the getting started section, and make notes of any redundancies that can be removed from the getting started page or any improvements that can be made to the quick start section
Testing Plan	3	Manual testing	Manually test new features, including API, GUI, and check for updates to the getting started document
Frontend	3	Richer functionality of the web frontend	The frontend of Augur can be extended

1. View the hello world page

Users can view a new page by navigating to /hello-world on the instance.

2. View the number of pull requests

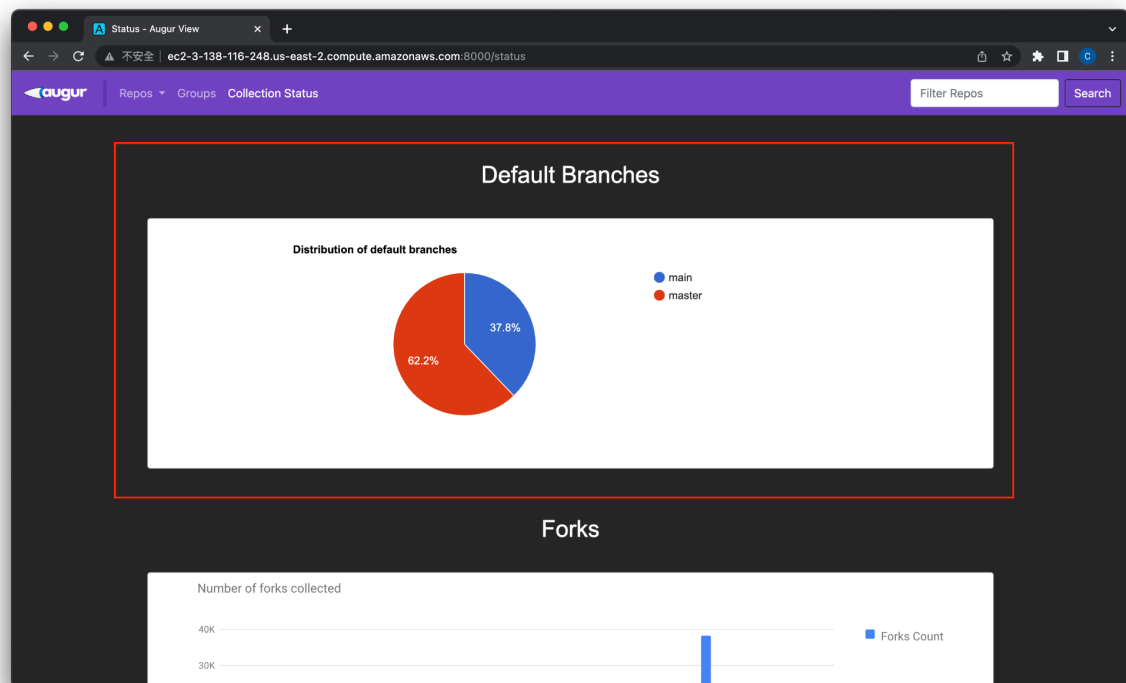

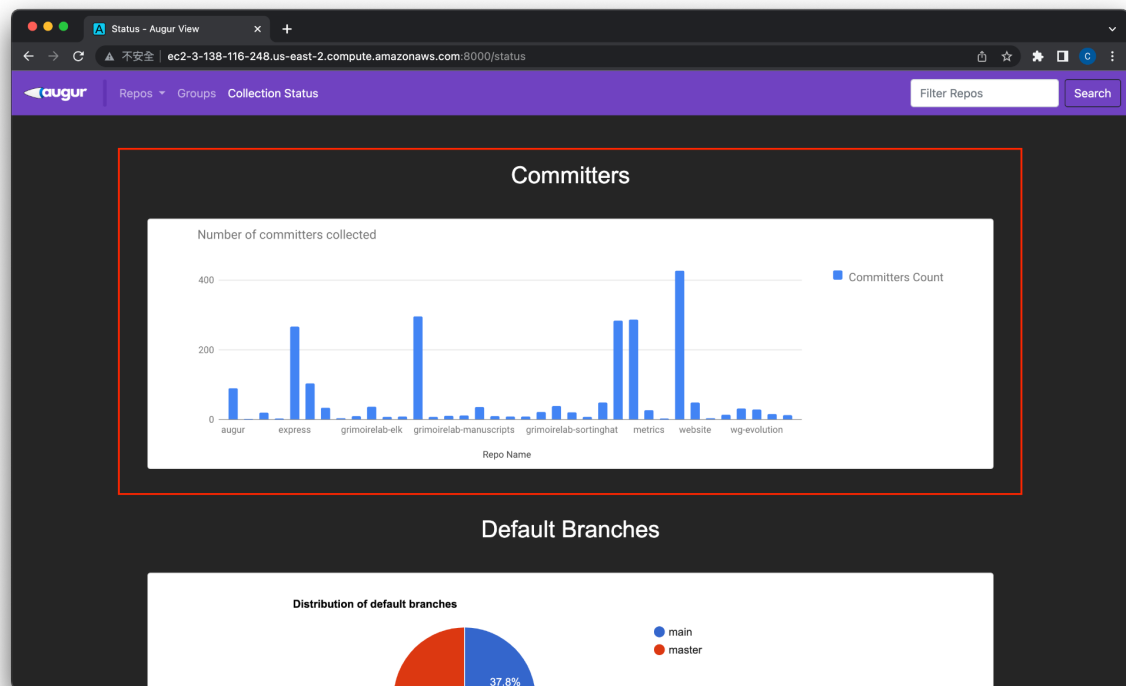

Users can view the number of pull requests in the change requests column.

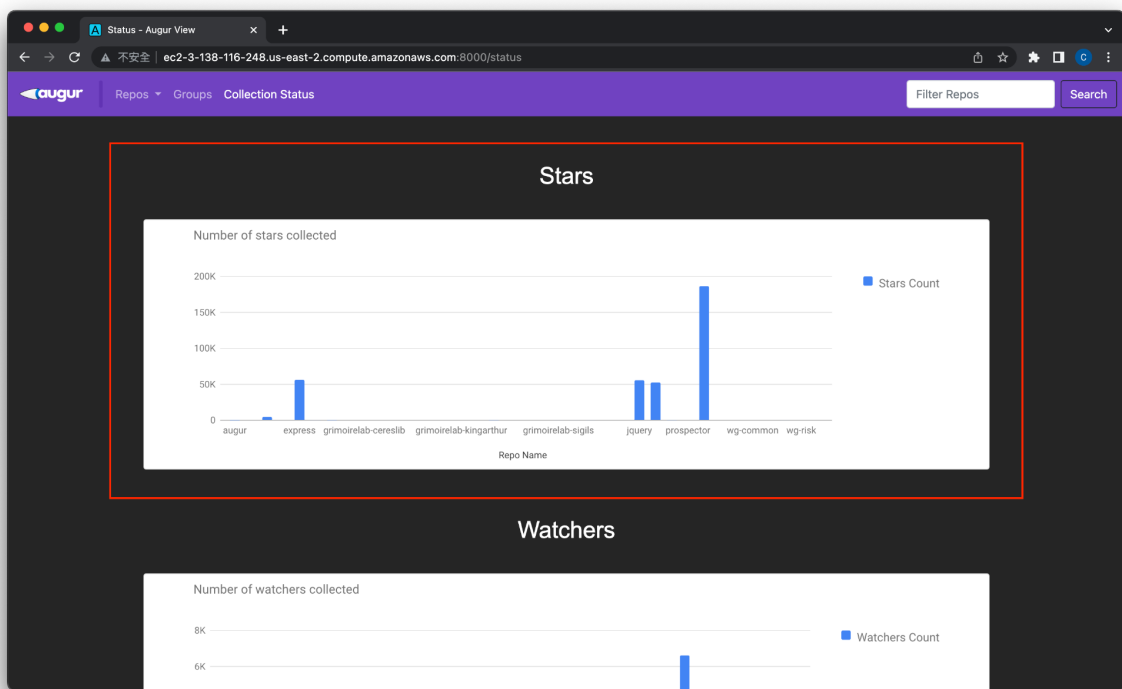

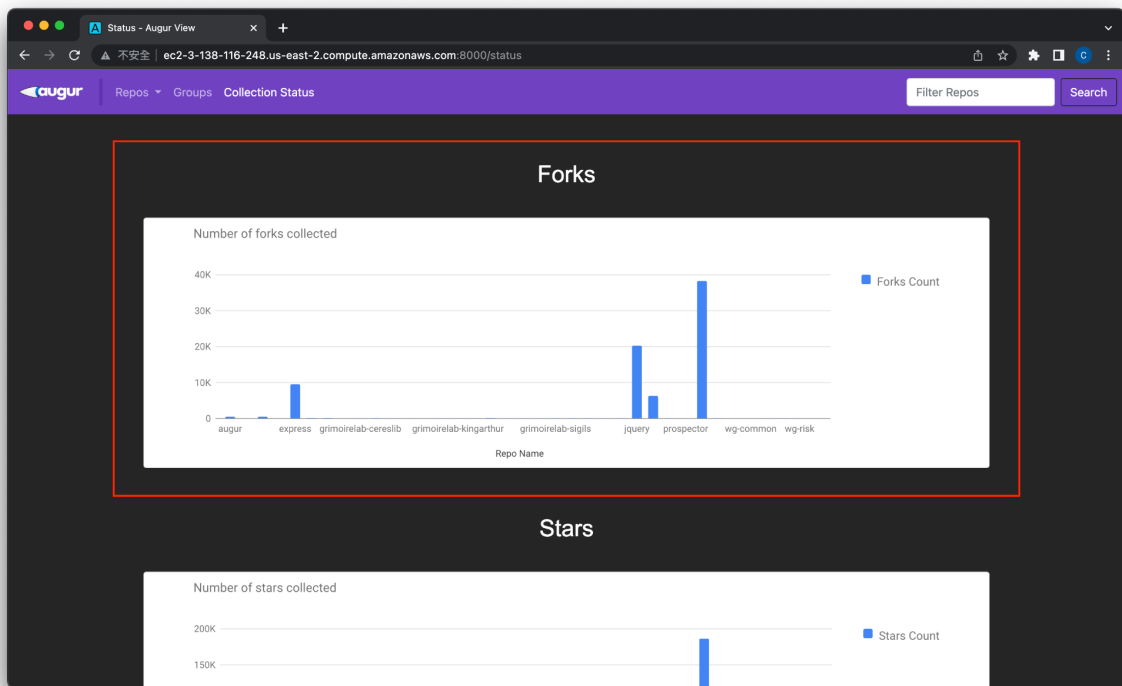

The screenshot shows a web browser window with the address bar displaying 'ec2-3-138-116-248.us-east-2.compute.amazonaws.com:8000'. The page has a purple header with the 'augur' logo and navigation links for 'Repos', 'Groups', and 'Collection Status'. A search bar is also present. Below the header, there are pagination links: 'Previous', '1', '2', and 'Next'. The main content is a table with 7 columns: '#', 'Repo Name', 'Group', 'Reports', 'Commits', 'Issues', and 'Change Requests'. The 'Change Requests' column is highlighted with a red border. The table contains 16 rows of data.

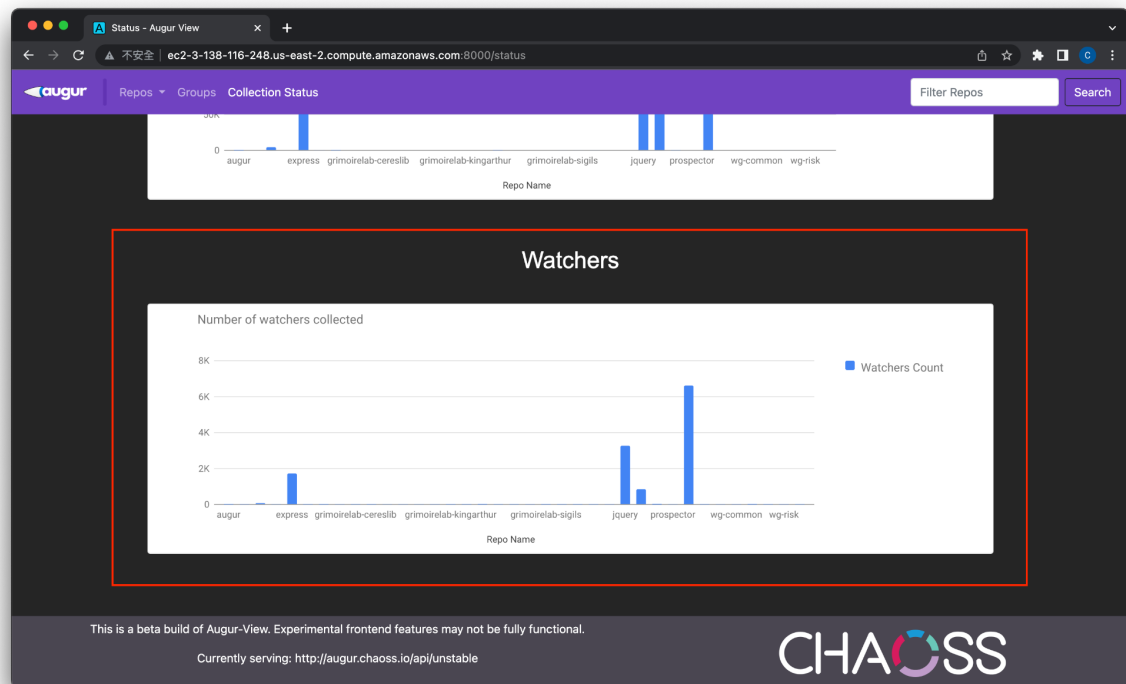

#	Repo Name	Group	Reports	Commits	Issues	Change Requests
1	augur	chaoss	TODO	7456	433	1296
2	augur-license	chaoss	TODO	73	1	15
3	body-parser	samples	TODO	602	363	90
4	community-reports	chaoss	TODO	29	2	7
5	express	samples	TODO	5694	3632	1094
6	governance	chaoss	TODO	573	53	317
7	grimoirelab	chaoss	TODO	509	286	195
8	grimoirelab-bestiary	chaoss	TODO	156	42	73
9	grimoirelab-cereslib	chaoss	TODO	154	3	39
10	grimoirelab-elm	chaoss	TODO	3037	212	828
11	grimoirelab-graal	chaoss	TODO	258	42	71
12	grimoirelab-hatstall	chaoss	TODO	195	40	79
13	grimoirelab-kibiter	chaoss	TODO	20540	24	128
14	grimoirelab-kidash	chaoss	TODO	95	14	38
15	grimoirelab-kingarthur	chaoss	TODO	301	44	73
16	grimoirelab-manuscripts	chaoss	TODO	221	44	94

3. View visualization about committers, default branches, forks, stars, and watchers

Users can view visualization about committers, default branches, forks, stars, and watchers on the collection status page.

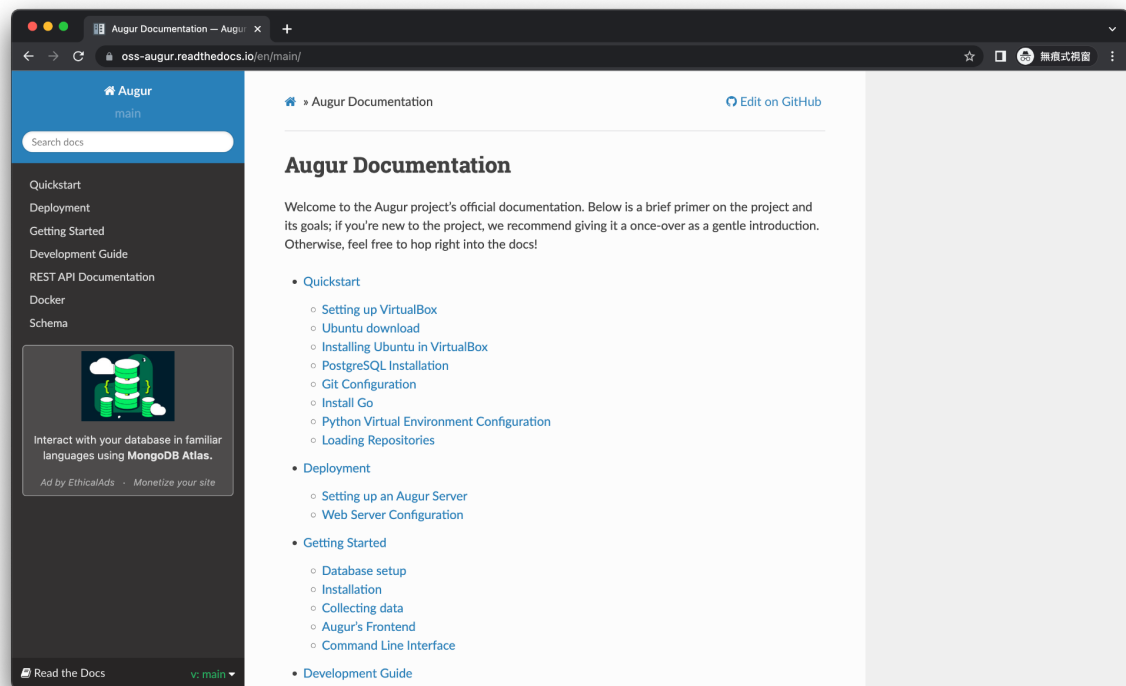

4. Getting Started Document

The goal for the getting started document is to read the quick start and the getting started section, and make notes of any redundancies that can be removed from the getting started page or any improvements that can be made to the quick start section. They don't have to be implemented yet but make an outline for what we plan on changing.

Manually test new features, including API, GUI, and check for updates to the getting started document.

The screenshot shows the GitHub web interface for the repository 'augurlabs/augur_view'. The top navigation bar includes the GitHub logo, a search bar, and links to Pull requests, Issues, Marketplace, and Explore. Below this, the repository name 'augurlabs/augur_view' is displayed with a 'Public' badge. A secondary navigation bar contains links for Code, Issues (4), Pull requests (1), Discussions, Actions, Projects, Security, and Insights. The main content area features a 'main' branch selector, indicating 5 branches and 0 tags. A table of recent commits is shown, with the most recent being 'Ullincsys Squashed some bugs, updated docs' from 5 days ago. Below the commits, a list of files is displayed, including 'resources', 'static', 'templates', and various configuration files. The right sidebar contains an 'About' section with a description, a 'Releases' section with no published releases, a 'Packages' section with no published packages, and a 'Contributors' section listing 'Ullincsys' and 'sgoggins'.
